Learning these efficient, or standard, methods of calculating should only take place when children can add or subtract 2-digit numbers in their heads and have a sound knowledge of times. How can this Year 6 Maths SATs Revision PowerPoint help learners. Physical education curricula should emphasize knowledge about the physical, social, and mental health benefits of physical activity; components of health-related fitness; the recommended amounts and types of physical activity needed to promote health; the relationship between physical activity and physical fitness ; principles of exercise; injury prevention; energy expenditure; and social influences on physical activity. For children, adolescents, and adults, knowledge about how to be physically active might be more important than knowledge about why physical activity is beneficial. Thus, physical education curricula also should include the development of safe and effective individualized physical activity plans.
